Present: Austria, Czech Rep., France, Germany, Slovakia, Ukraine

Absent: Hungary, Italy, Latvia, Poland, Russia, Switzerland,

- 1) Review of the last AGM (Europe and World)
- 2) Explanation again:  
what meant membership and country fee from a country:

- a) promote national championships (there have to vote WUAP referees)
- b) they have a vote at the AGM
- c) they can give a bid for big international championships (Europeans, Worlds, Worldcup)
- d) they are allowed to bring in „rule changes“

because of incidents of membership fee there was a decision by the boardmembers to require no fee starting from 2011. In place of incomes from the membership fee a fee must be paid from 5 Euro per lifter (with European championship, World championship and Worldcup and not for other championships). The fee is going to the United Powerlifter / WUAP account. Thus general expenditures of the federation are paid. The entry fee per lifter increases for those championships thereby 5 Euro. (starting from 2011)

- 3) Each country get a contact women / men to the european / world federation. The country representatives are shown at the site „country representatives and referees“. Proposals of the country representatives or their replacements are sent to the CEO and then the boardmembers will decide.
