Comment:

Due to small amount of competitors at World Cups in the past we are coming with following suggestions:

After a deal of suggested participants we suggest to promote WORLD CUP regularly in these countries: Germany, Czech Republic, Slovakia in 4 years cycles.

Interest about promoting the fourth World Cup can have any of the member countries if it has enough time for preparation.

Interest about promoting World Cup in a period every second year (for example: 2016,2018,2020...) can have any of the member countries.

6.) The rule about the start of a competitor in more than one age class

Competitor on WUAP contests can sign in more categories (for example: Teen + Open, Junior + Open, Submaster + Open and Masters + Open) but he/she has to start in each category and make at least one good lift to be classified in exact category.

Lift in one category can't be accepted in other category! Every promoter of WUAP contest will try to make it possible for competitors to start in more categories if he was correctly signed in and he payed starting fee.

In case that promoter isn't able to make possible to compete in more categories because of organization reasons he has to inform him/her before competing groups are divided and the competitor has to make a decision in which category he/she is going to compete. Promoter has to remove him/her from category where he/she isn't going to compete and give back money for starting fee in category.

7.) Stop drugs

WUAP federation informs all members and competitors that test for using banned substances will be done also in following term.

Tests will be done during weight in of competitor before the contest (European Championships, World Championships, World Cup)

Competitor will be tested for following banned substances:

heroin

cocaine

opioid drugs

cannabis

extasy

WUAP federation can change the list of banned substances until 31. January in present year but the list of these substances has to be updated on the website.

8.) WUAP will use the new logo from 2016

Logo suggestion:

Comment:

In case that the new logo is accepted, it will be possible to download it from WUAP website. It is also responsibility of every member to change old logos for new ones in the shortest time possible (web sites, facebook, Twitter, posters of contests ...)

9.) Sign of referees

We suggest immediate ban of using neckties which were used by WUAP referees till today. The reason is the logo on neckties (United Powerlifter). We suggest to WUAP referees to obtain shirts with WUAP logo and the title "REFEREE". Design will be sent to all WUAP members t confirmation with requisition to vote for World Cup 2016 promoter till 02.01.2016.

10.) Revision of international referees

WUAP has got the rule which says that if international referee hasn't refereed any ME, MS or World Cup for two years, he loses his license.

We ask referees of membered countries of WUAP to a revision of international and also national referees. In the list of referees are some names who haven't refereed for few years and it is not known if they plan to refer again in the future.

In case that international referee has lost his licence, but he wants to refer again in the future he has to ask for keeping his license active by his national agents of vicepresident of WUAP Meinhard Schröder. Updated list has to be sent till 31.01.2016 to Mr. Schröder.

Mail: meinhard.schroeder@online.de

11.) Taping/Kinesio Taping

Right now using tapes and kinesio tapes is banned at WUAP contests.

Comment:

Tapes and Kinesio Tapes are giving not allowed advantage to competitor so we suggest to let them banned in the future for RAW and also for EQUIPPED category. Its usage is allowed only during warm up. During competitive lift tapes has to be removed. Their usage will be resulting to no lift.

12.) Result of WUAP competitions will be scheduled in specified format

According to differences between scheduled results of previous WUAP competitions the suggest was create to urge that every promoter of competition will send the official results to nominee person. This suggest allows not only detailed checking and correction of the results but also of records.

Results will be sent to nominee person in format MS Excel (.xls) and scheduled by nominee person of WUAP in pdf format. Promoter has to send the results until 3 days from the end of the contest. Official results will be scheduled on the website until 5 days from the end of the contest. Until revealing the official results on WUAP website, all results from promoters has to be marked as unofficial.
